# 20 HEATING SOLUTIONS

## for inside and outside the home

Heating the outside room is just as important as ensuring the inside stays warm. From modern fireplaces to heated towel rails and underfloor heating, we've sourced some simple and effective solutions to keep every corner of your home cosy through the winter months.

**1** A cylindrical-shaped tea-light-inspired fireplace, Cyl from EcoSmart Fire is constructed from weather-resistant materials, including a round stainless-steel base that encases a five-litre stainless-steel Around Burner. The cylindrical glass surround is made of crystal glass, which embraces the flame and is elevated above the base by three stainless-steel spigots. The Cyl can be turned on and off as desired using the accompanying lid. Standing 533mm high, the Cyl is a stylish addition to an alfresco party or event — at any time of the year.

\$3,799

**3** Bio-fuel Freestanding Cocoon Fireplace from Agnews Fireplaces.  
[www.agnews.com.au](http://www.agnews.com.au)

**9** The Escea EFS000 outdoor gas fireplace from Glen Dimplex Australia is a wide-aspect, open-fronted gas fireplace that has been specifically designed to provide heat and ambience to an outdoor living or dining area. The fireplace is ignited by way of its touch-pad electronic control. It is made of 100 per cent stainless steel, and its flue-less design has removed the complexity and expense associated with flued outdoor fireplaces. RRP \$4899.
